

## **Making the most out of your session**

- Get to know your tutee
  - What year is he/she in?
  - Have they been to tutoring before?
  - Have they taken a similar class before?
  - Learning style?
  
- Assess what type of session your tutee needs.
  - Review of last semester's material?
  - Conversation practice?
  - Assignment help?
  - Venting session?
  
- Establish a goal.
  - What assignment or section takes priority?
  - What can they do on their own?
  - Will it be on the test?
  - Will they use this in real life?
  
- **STICK TO THE GOAL.**
  - You can still be flexible.
  
- Come up with the after session plan. (CLIENT REPORT FORMS)
  - Remind them of everything you accomplished
  - What should be done in the next session?
  - What do *they* need to do *before* the next session?
  
- Walk them to schedule next session.
