**8 HOURS COULD
SAVE 4 MONTHS**

Math Placement Preparation

The math placement test determines at what level you start your college math. Placing into the appropriate college level math course will save you time and tuition, and you should study for the placement test to optimize your placement. Avoid the feeling that you have been placed in the wrong math course. If you have not looked at math in the last three months or did not take math in your senior year, then this program is for you. http://youtu.be/f_2S7IVCG9w

How It Works

The online preparation course is divided into 8 units that reflect the content of our Intermediate Algebra course. Each unit will start with an assessment of your current abilities in the topics in that unit. Based on that assessment, a study plan will be created and tailored to your individual needs. The study plan will help you review the topics that need to be revisited and will help you solve the problems that are more difficult to master. After the 8 units have been reviewed, you will have the opportunity to take a practice placement test. <http://youtu.be/C-s4PFGV7SU>

Benefits

- Greater confidence when you take the placement test
- Online study/review pace controlled by you
- Better placement test scores resulting in improved placement
- Review of the necessary math skills tailored to your needs
- Better preparation for any math course in the fall
- Potential tuition savings of \$3500 and four months of math class!

Student Cost

\$10 and time. This is a small price to pay because 8 hours could save you 4 or more months!

How does 8 could save 4 work?
<http://youtu.be/C-s4PFGV7SU>

How do I enroll?
http://youtu.be/zlhSpuV_Bho

* The course is for review purposes only; there are no guarantees of math placement.

** It will take the well-prepared student around 8 hours to complete the review course.

Enrollment Instruction

How to Register and Enroll in Your Program

Welcome to MyMathTest! Your instructor has set up a MyMathTest program for you.

The program name is: Algebra Review

To join this program, you need to register for MyMathTest and then enroll in the program.

1. Registering for MyMathTest

Before you begin, make sure you have the access code that comes with your MyMathTest Access Kit. If you don't have an access kit, you can buy the code online by clicking **Buy Now** at www.mymathtest.com.

To register, go to the www.mymathtest.com for MyMathTest, click the **Register** button, and then follow the instructions on the screen.

2. Enrolling in your instructor's program

After registering, log in to MyMathTest with your username and password. To enroll in this program - **Algebra Review 2020-2021** -, enter the following program ID:

The program ID for your program is: XL3F-U14C-501Z-80W2
