UNDERGRADUATE
DEGREE PROGRAMS*

For working professionals, earning a bachelor’s degree through the University of La Verne is manageable and realistic. La Verne provides educational opportunities for adults with varied educational backgrounds. We seek students who are creative, motivated, self-disciplined, and committed to learning, with consideration given to formal educational experience as well as the potential to succeed in a challenging and rewarding academic program.

Bachelor’s Degree Programs (four unit courses)
AA/AS degree not required to begin the program:

Bachelor of Arts in Business Administration: 52 units*
Today’s challenging business environment demands competent individuals with a sound foundation in business principles and current technologies, allowing them to work effectively in teams, and to operate ethically and responsibly within the dynamic global business environment.

Bachelor of Science in Organizational Management: 40 units*
This major is designed to improve management, organizational and interpersonal skills, with a focus on immediate application in the work setting.

Bachelor of Science in Public Administration: 40 units*
This degree assists current and aspiring managers and administrators in gaining the skill, insight, and a wide range of technical and relational abilities in addressing current public issues.

Bachelor of Science in Health Administration: 40 units*
The program provides healthcare professionals with the non-clinical skills necessary to manage a high-performance staff, as well as the financial challenges, technological advances, and other vital emerging trends within health service organizations.

*Units required for the academic major. A bachelor’s degree requires the completion of a minimum of 128 units, including the academic major (four units per class), general education, and elective requirements. Residency requirement=40 units, the minimum number of undergraduate units a student must complete from La Verne to be awarded a degree.

There are many ways your employees can earn and transfer their undergraduate degree credit:

- **Transfer Credit** from accredited community colleges/universities
- **DANTES/CLEP** standardized tests in many subject areas
- **Military Service** credit for basic training/courses taken during duty
- **Registered Nurses** with valid California licensure awarded 70 units of transfer credit
- **Hospital Transfer credit** for hospital-based/health care related training
- **Company or Government training** may be awarded if courses are accredited by the American Council on Education

University of La Verne
GRADUATE DEGREE PROGRAMS*

It is the mission of the University of La Verne to provide our graduate students with a broad-based management education emphasizing the application of theory to everyday management application. We build on the conceptual skills and core values needed to become effective leaders and managers in today’s rapidly changing global business environment.

Master’s Degree Programs (three unit courses):

Master of Business Administration (MBA): 33-48 units
The Master of Business Administration for Experienced Professionals is a broad-based management program designed to integrate the functional areas of business. The La Verne MBA curriculum has been designed to offer the type of graduate business education employers want.

Master of Science, Leadership and Management (MSLM): 33-36 units
The Master of Science in Leadership and Management is designed to educate and develop future leaders for all types of organizations, with a curriculum integrating management and leadership theories with real-world applications.

Master of Health Administration (MHA): 36 units
The Master of Health Administration is sought after by health service professionals seeking to enhance their development of strategic planning, effective change management, ethical and legal responsibilities, thereby securing their future in healthcare industry management and administration.

Doctoral Program (three unit courses):

Doctorate in Organizational Leadership (Ed.D.): 54 units
This program is designed for the working professional who wishes to pursue advanced academic study while continuing his or her career. Its mission is to develop scholarly practitioners as leaders and architects of change who make significant contributions to the organizations and communities they serve.

*Other degree programs may be available for on-site delivery. Please discuss with your La Verne representative.
