

Major Articulation – Educational Studies, BA
University of La Verne
2016 – 2017

The Educational Studies major prepares students for entry into the teacher credential program. The Educational Studies courses also include materials to prepare students to take the California Subject Examination for Teachers (CSET), required by the California Commission on Teacher Credentialing to demonstrate subject matter competency. Students are required to complete the Core requirement and have an option of completing a concentration.

Educational Studies Statue of Limitations: Because of the continuous changes in the field of education, admissible transfer courses must be taken within the last seven years at an accredited university or college. Additionally, courses previously taken at the University of La Verne must also be less than seven years old to be accepted in to the current degree.
