

## Student Admission Health Recommendations

### Health Recommendations for Undergraduate, Transfer, International, and Exchange Students:

1. A Complete Physical Examination **within the past year** (includes a vision screening). A **Physical Examination Form** and **Immunization Record** must be completed and signed off by a health care provider (MD, PA, or NP).
2. The student must complete a **Health History Record**.
3. Two doses of the Measles, Mumps, Rubella (MMR), at least 28 days apart and dose #1 must be given on or after 12 months of age. A positive MMR titer will be accepted in lieu of this vaccination series if no records are available.
4. One dose of Tetanus, Diphtheria, Acellular Pertussis (Tdap) **within the last 10 years**.
5. Three doses of the Hepatitis B vaccine series. A positive Hepatitis B titer will be accepted in lieu of this vaccination series if no records are available.
6. One dose of Menomune (MPSV4) or Menactra (MCV4) **within the last 5 years**.
7. A TB Skin test (Mantoux ) **within the past year**. The TB skin test must be read within 48-72 hours. If a student has a history of a positive TB Skin Test, then a chest X-ray within the past year must be obtained. A copy of the actual x-ray report is needed. **International and Exchange students will be required to obtain a QuantiFERON Gold Test**. The traditional Mantoux will **NOT** be accepted for International and/or Exchange students.
8. Documentation from a medical provider or parent indicating the approximate month and year the student had Varicella (chicken pox). A positive Varicella titer will be accepted if no records are available. If a student did not have Varicella in the past, two doses of the Varivax vaccine must be obtained at least 28 days apart.

#### Additional Recommended Vaccinations:

- Two doses of the Hepatitis A vaccine 6-12 months apart.
- Three doses of the Gardasil vaccine for women and men between 9-26 years of age.
- An annual flu vaccine in fall of each year.
