

Physics Program  
Department of Math/Physics and Computer Science

Assessment Plan  
2002

The goal of the assessment plan of the Physics Program is to provide faculty with on-going and meaningful information to help improve learning outcomes. The following assessment procedures are used:

**1. Alumni Status**

- Identify students admitted to graduate school

**2. Comprehensive Exit Exam**

- Students take a Comprehensive Exit Exam during the Senior Seminar

**3. Evaluation of Senior Projects**

- Instructors evaluate each Senior Project using a common rubric

**4. External Review**

- A physics faculty member external to the University of La Verne conducts a critical review of the program including a visit to the campus to interview faculty, students and staff, and an examination of the program review document.
