A. Executive Summary	<b>Very well</b> organized with a flowing narrative that identifies <b>all</b> goals and objectives, highlights program's salient characteristics and capacity, briefly describes <b>all</b> the indicators and assessment procedures, summarizes <b>major</b> findings identifying deficits, and lists <b>all</b> the action recommendations <b>tied</b> to the findings in order of priority	Organized <b>well</b> using a narrative that mentions <b>most</b> goals and objectives, identifies <b>some</b> program characteristics and capacity, briefly highlights <b>most</b> of the indicators or assessment procedures, summarizes the major findings, and identifies <b>most</b> of the action recommendations <b>tied</b> to the findings without priority	Uses a narrative that mentions <b>several</b> goals and objectives and <b>few</b> program characteristics, highlights only <b>some</b> of the indicators or assessment procedures in general term, mentions <b>some</b> of the findings <b>without specifics</b> , and identifies <b>few</b> of the action recommendations with <b>unclear</b> ties to findings	<b>Not well</b> organized, perhaps using bullets, <b>skips</b> around and <b>misses</b> significant elements of the review, does <b>not mention specific</b> assessment procedures or findings, and recommendations sound like a <b>wish list</b> with unclear ties to findings
B. Goals, Objectives and/or Learning Outcomes	<b>All</b> goals, objectives and/or learning outcomes are <b>specific</b> , phrased using <b>action words</b> in <b>measurable</b> terms, and <b>include</b> stakeholder satisfaction	<b>All</b> goals, objectives and/or learning outcomes are <b>fairly</b> specific, are phrased using <b>action words</b> with <b>some exceptions</b> , are stated in <b>measurable</b> terms, and <b>include</b> stakeholder satisfaction	<b>Most</b> goals are <b>fairly</b> specific, but <b>few</b> are phrased using <b>action words</b> , <b>few</b> are stated in measurable terms, and do <b>not include</b> stakeholder satisfaction	Most goals are stated in <b>general terms lacking specifics</b> , are phrased using <b>non-action words</b> , <b>few are stated in measurable</b> terms, and do <b>not include</b> stakeholder satisfaction
C. Capacity and Program Description	Program's capacity is <b>very well</b> described and documented with <b>evidence</b> , identifies staffing and personnel <b>with</b> an organizational chart and turnover issues, <b>describes and evaluates</b> the resources and facilities, and <b>trends</b> the budget	Program's capacity is <b>adequately</b> described and documented with <b>evidence</b> , identifies staffing and personnel <b>with</b> an organizational chart and turnover issues, and <b>merely describes</b> the resources and facilities, and <b>trends</b> the budget	Program's capacity is <b>adequately</b> described but <b>lacks documentation</b> , identifies staffing <b>without</b> an organizational chart and <b>merely mentions</b> the adequacy or lack of resources and facilities, and provides the <b>last</b> budget without trending	Program's capacity is <b>inadequately</b> described and <b>lacks documentation</b> , mentions adequacy or lack of staffing, and <b>merely mentions</b> the adequacy or lack of resources and facilities
D. Indicators and Assessment Procedures	<b>Several direct and indirect performance measures</b> or indicators are used, address <b>all</b> goals and objectives, and input from external and internal <b>stakeholders</b> are obtained with surveys and/or focus groups	<b>At least one direct and one indirect performance measure</b> or indicator is used, address all goals and objectives, and input from external <b>stakeholders</b> are obtained with surveys and/or focus groups	<b>No direct performance measures</b> or indicators are used, and input from <b>stakeholders are</b> obtained <b>anecdotally</b>	<b>No direct performance measures</b> or indicators are used, and input from <b>stakeholders are not obtained</b>

E. Findings	Data are presented in <b>easy to read</b> format (Tables and graphs) and narrative that <b>explicitly and systematically</b> address <b>each</b> of the goals, objectives and/or learning outcomes, degree of attainment of each is <b>correctly inferred from the data</b> , and all areas of strengths as well as <b>deficits</b> that need improvement are <b>clearly and explicitly</b> identified	Data are presented in <b>easy to read</b> format (Tables and graphs) and narrative that address <b>each</b> of the goals, objectives and/or learning outcomes, degree of attainment of each is <b>correctly inferred from the data</b> , and areas of <b>deficit</b> that need improvement are <b>identified</b> in <b>general</b> terms	Data are presented in <b>tables and graphs with minimal narrative</b> , and <b>superficially</b> address each of the goals, objectives and/or learning outcomes, degree of attainment of each is <b>mentioned in general terms</b> , and areas of <b>deficit</b> that need improvement are <b>identified</b> in <b>general</b> terms	Data are presented in <b>tables and graphs</b> with <b>almost no narrative</b> , and <b>fails</b> to relate the findings specifically to the goals, objectives and/or learning outcomes, degree of attainment of each learning outcome is <b>mentioned in general terms</b> , and areas of deficit that need improvement are <b>not mentioned</b>
F. Action Recommendations	<b>All</b> recommendations are <b>evidence based</b> , and areas of <b>deficit</b> in resources and functions are <b>targeted for improvement</b> with accompanying <b>action plans with timelines</b>	<b>All</b> recommendations are <b>evidence based</b> , and areas of <b>deficit</b> in resources and functions are <b>targeted for improvement</b> with <b>action plans to be developed or not mentioned</b>	<b>Most</b> recommendations are <b>evidence based</b> , but <b>several sound like wishes not supported by evidence</b> , and <b>several areas of deficit</b> are <b>not targeted</b> for improvement	<b>Most</b> recommendations are <b>not evidence based</b> and sound like a <b>wish list for resources</b> , and <b>most areas of deficit</b> are <b>not targeted</b> for improvement
G. Appendices	<b>All</b> appendices are <b>labeled clearly</b> , <b>add value</b> to the text and are appropriately <b>referred</b> to in the text	<b>All</b> appendices are <b>labeled clearly</b> and are appropriately <b>referred</b> to in the text	<b>Most</b> appendices are <b>labeled clearly</b> but <b>not all</b> are appropriately <b>referred</b> to in the text	Appendices are <b>not labeled</b> , seem like an <b>afterthought</b> , and <b>most are not referred</b> to in the text
