

ULV Society of Accountants (ULVSA)

Mission Statement:

The ULV Society of Accountants is a professional organization for students designed to provide the guidance necessary to successfully complete the accounting program and transition from the learning environment of the university to the corporate world. Students will have the opportunity to network with peers providing a scholarly support system and recruiters or potential employers. The ULV Society of Accountants aims to increase awareness and improve the reputation of the business school and the accounting program at the University of La Verne. This will be achieved by consistently inviting prominent and influential business figures to speak on campus in coordination with participating in sponsored competitions on the national level.
