### **STUDENT SUPPORT SERVICES**

Students often experience challenges during their time in college. Common challenges faced by students involve their academics, mental health/well-being, housing or food insecurity, grief and loss, and significant familial distress. These challenges can directly affect a student's ability to be present and committed to their educational endeavors. Students experiencing these (or similar) hardships may benefit from connection with resources to support their well-being and success. If you are a student in need of support, resources can be found at the [Student Outreach and Support \(SOS\) Website](#).

Additionally, as members of the Leo community, we each share a personal responsibility to express concern for one another. Occasionally, you may come across a fellow classmate whose well-being you are concerned for. When this is the case, you are encouraged to [share this information with SOS](#).
