Chromebook OS

Instructions on how to connect to the **"Univ of La Verne Wi-Fi Protected**" Wi-Fi network with your Chromebook device for the first time.

Step 1: Locate the Wireless Networks (Wi-Fi) icon in the bottom right and left-click the icon.

Step 2: In the menu that appears, click in the network row (you will either see a network indicator icon or the words "No network" on that row).

Step 3: Select "Univ of La Verne Wi-Fi Protected" from the list of available wireless networks.

Step 4: In the "Join Wi-Fi network" dialog box, set up your connection as follows:

EAP method: Select PEAP.
Phase 2 authentication: Select MSCHAPv2.
Server CA certificate: Select "Do not check" (or "None installed").
Identity: Enter your University of La Verne e-mail username.
Password: Enter your e-mail password.
Anonymous identity: Leave this blank.
