

Chromebook OS

Follow these steps to connect your Chromebook device to the “**Univ of La Verne Wi-Fi Protected**” network for the first time.

Step 1: Go to your device’s **Wi-Fi settings**.

Step 2: Select “**Univ of La Verne Wi-Fi Protected**” from the list of available wireless networks.

Step 3: In the "Join Wi-Fi network" dialog box, set up your connection as follows:

EAP method: Select **PEAP**.

Phase 2 authentication: Select **MSCHAPv2**.

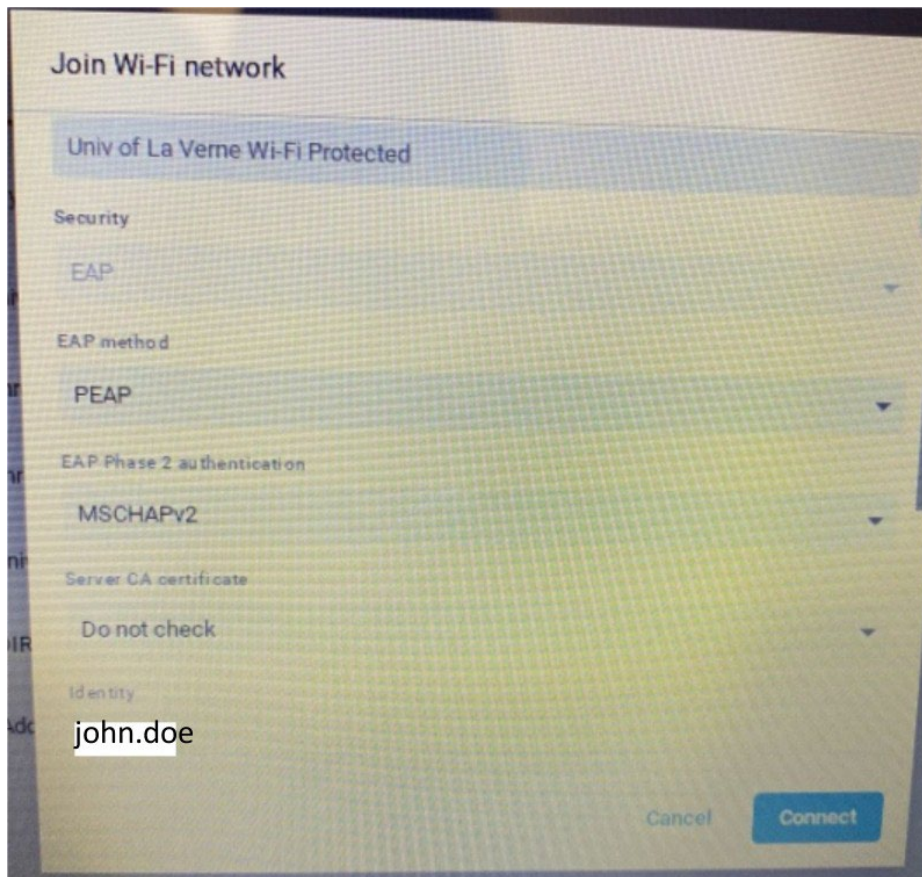

Server CA certificate: Select “**Do not check**” (or “**None installed**”).

Identity: Enter your University of La Verne **email** username.

- If your username is **20 characters or fewer**, enter just your username (example: john.smith).
- If your username is **longer than 20 characters**, enter your full email address (example: alexandra.jones-smith@laverne.edu).

Password: Enter your email password.

Anonymous identity: Leave this field blank.

Note: If you do not have a University of La Verne email account, [click here](#) for guest Wi-Fi access instructions.

Step 4: Click **Connect** to join the network.
