

Apple iOS

Instructions on how to connect to the “Univ of La Verne Wi-Fi Protected” Wi-Fi network with your iOS device for the first time.

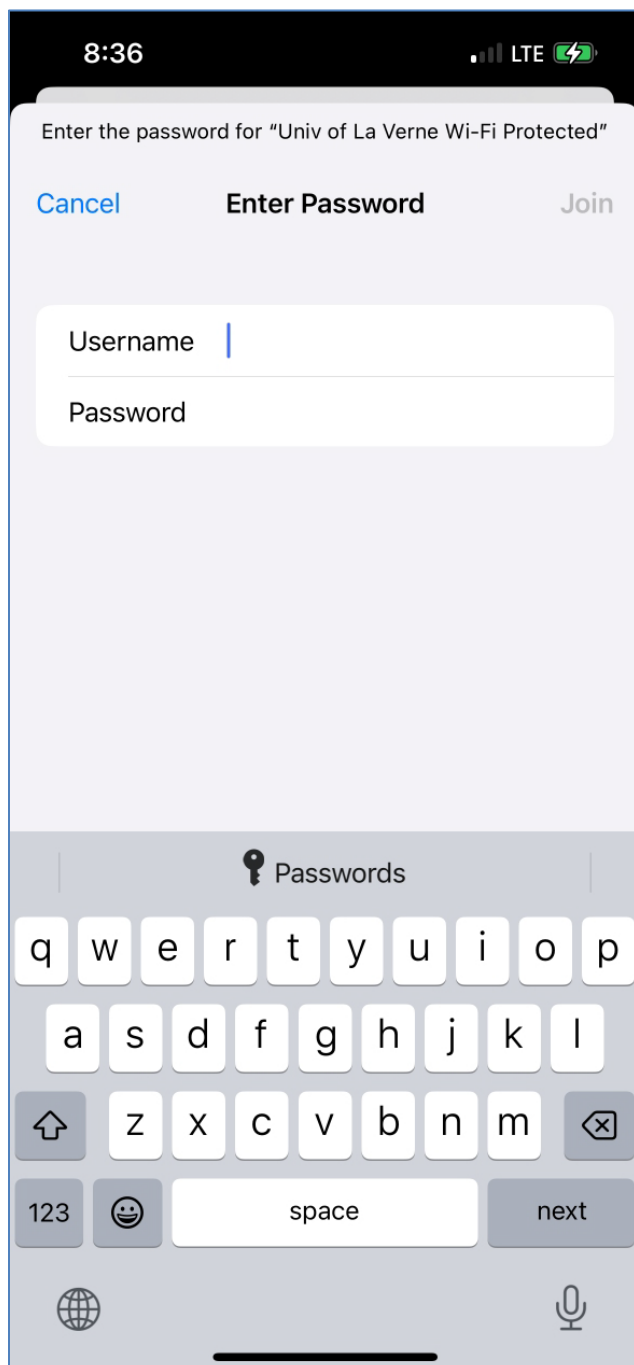

Step 1: Open **Settings** > **Wi-Fi** and tap “Univ of La Verne Wi-Fi Protected” from the list of available networks.

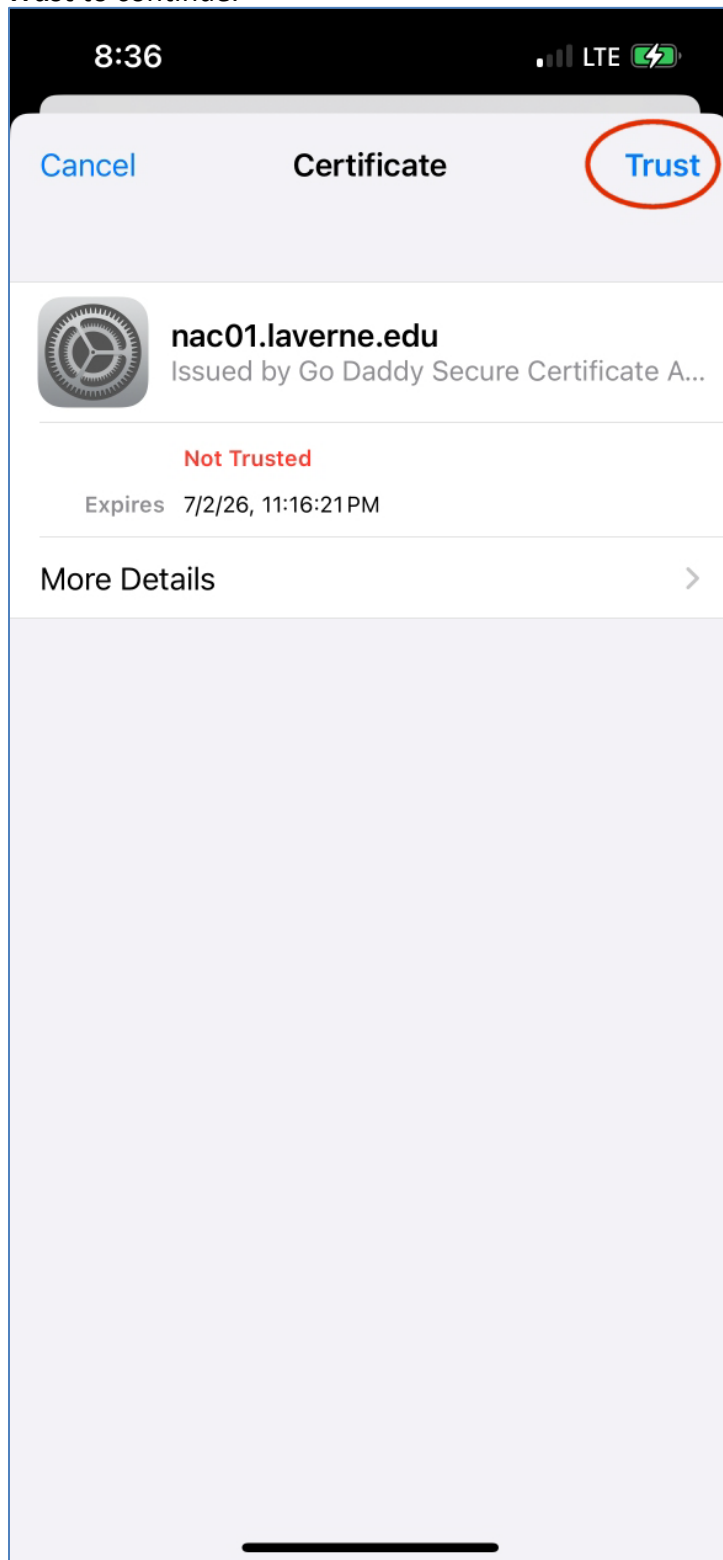

Step 2: Enter your University of La Verne **email** credentials and press **Join**.

- If your **username is 20 characters or fewer**, enter just your username (example: john.smith)
- If your **username is longer than 20 characters**, enter your **full email address** (example: alexandra.jones-smith@laverne.edu)

Note: If you do not have a University of La Verne email account, [click here](#) for guest Wi-Fi access instructions.

Step 3: When the **Certificate** window appears (it should look similar to the example below), tap **Trust** to continue.

Step 4: You are now connected to the “Univ of La Verne Wi-Fi Protected” network.
